

Maximize Process Flexibility

Scrum, XP, Waterfall, Lean...

Are you increasingly having difficulty keeping your source safe?

Stop analyzing and start innovating. Unleash your development potential with AccuRev:

- Quickly respond to rapid release cycles
- Simplify the management of parallel versions
- Utilize the power of streams to “branch,” merge and difference with confidence
- Easily facilitate & drive up reuse of .NET code
- Work by issue, file or transaction
- Get off the whiteboard and manage YOUR process right in the SCM solution
- Collaborate regardless of geographical location

Seamless Integration with Microsoft Visual Studio & More

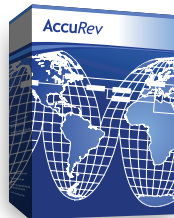

AccuRev provides best-of-breed software change and configuration management (SCM) solutions for today’s complex and changing software development environments. AccuRev is used by organizations such as American Airlines, Orbitz, Polycom, Thomson Financial and Lockheed Martin. AccuRev provides integrations with leading application lifecycle management tools including Microsoft Visual Studio and Team System.
